

液化气加气机配件
LPG DISPENSER COMPONENTS
加气枪
LPG NOZZLE

LPGJQQ【液化气加气枪】
LPG NOZZLE

- 一步操作，简单易用；
- 人性化设计；
- 经久耐用，适合于反复连接；
- 铜，铝，不锈钢结构，具有优秀的抗腐蚀性能，
- 自带360°接头。

User friendly single-action operation entire fueling operation is initiated by simply engaging nozzle to the receptacle with a single squeeze of the hand. Hammer-Lock technology maximum durability. Designed specifically for frequent coupling and uncoupling. Ergonomic design insulated handle protects operator from temperature effects created by high flowing LPG gas. Minimal force required to engage nozzle. Durable construction heavy-duty brass, aluminum and stainless-steel construction provides excellent corrosion resistance in the harsh fueling environment. Ease of use Incorporates with a single plane 360 inlet swivel.

技术说明Technical Specification

最大工作压力:Max Working Pressure:	350psi
断开时LPG的渗漏速度LPG discharge on disconnect:	4.3cc
温度 Temperature Range:	-40°C to50°C
连接方式:Connection:	意大利式Italian Style

材料 Material :	枪体 Body:	Aluminum
	内部Internal Components:	Brass/Steel
	外部External Components:	Brass/Strainless steel
包装package:		10pcs/carton
净重net weight:		20kgs
毛重gross weight:		21kgs
包装尺寸 dimension		360*320*230mm
