

甲醇潜油泵 METHANOL SUBMERSIBLE PUMP

QYB【甲醇潜油泵 METHANOL SUBMERSIBLE PUMP】

■ 特点

- 结构紧凑、运行平稳、噪音低、流速度、故障率低、寿命长、安装维修方便简单。
- 内置止回阀、泄压阀、检修回流阀，安全有保障。
- 用于甲醇加注机，泵直接浸入甲醇中，正压力推送甲醇到加注机，永无气化。

■ Characteristics:

- Compact structure, smooth operation, low noise, flow speed, low failure rate and long service life, easy installation and maintenance easy
- Built-in non-return valve, relief valve and maintenance backflow valve, ensure security.
- For methanol filling machine, pump directly immersed in methanol, positive pressure push Methanol to the filling machine, never gasification.

基本参数 Technical Specification

功率 Power	0.75HP	1.5HP
泵转速 Speed	2800r/min	
电压 Voltage	220V 50Hz/60Hz	220V/380V 50Hz/60Hz
流量 Flow rate	200L/min	250L/min
工作压力 Working Pressure:	0.23MPa	0.25MPa
环境温度 Ambient Temperature:	-25°C~+55°C	
噪音 Noise	≤68dB	

QYB-250
