

不锈钢化工泵

ADBLUE&METHANOL PUMP

ADB-25【不锈钢化工泵】

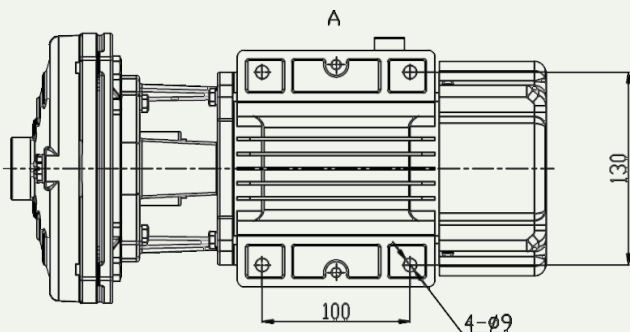

ADBLUE&METHANOL PUMP】

- 泵结构紧凑，维修方便。具有高扬程、大流量等特点。与介质接触部件全部采用不锈钢304材质，适合输送车用尿素水溶液(AUS32)、甲醇等化工介质。
- The pump has a compact structure and is easy to maintain. It has high head and large flow rate. All parts in contact with the medium are made of stainless steel 304, suitable for conveying chemical media such as AdBlue (AUS32) and methanol.
- 工作介质：车用尿素水溶液(AUS32)、甲醇等化工介质。
- Working medium: Adblue (AUS32), methanol and other chemical media
- 适用于含有ⅡA、ⅡB级T1~T4爆炸性气体混合物场所的1区、2区
- Applicable to Zone 1 and Zone 2 containing ⅡA, ⅡB Class T1~T4 explosive gas mixtures

参数说明 Parameter specification

流量 Flow Rate:	4.5m³/h	
电压 Voltage:	AC220V	AC380V
功率 Power:	0.75KW	
环境温度 Ambient temperature:	-25℃ ~ +55℃	
相对湿度 Relative humidity:	10%~90%	
大气压力 Atmospheric pressure:	80Kpa~106Kpa	
口径 Caliber:	Dn25	
防护等级 Class of protection:	Ip55	
扬程 Head:	28m	

结构Construction :

ADB-25
