

# 液化气加气机配件 LPG DISPENSER COMPONENTS 液化气电磁阀 LPG SOLENOID VALVE

## LPGDCF1/ LPGDCF2【液化气电磁阀 LPG SOLENOID VALVE】

- 工艺先进，动作可靠。
- Precise action, reliable, long service.
- 磁路部件采用特种不锈钢磁性材料，永不生锈或产生剩磁。
- Diaphragm of main valve has capability of anti-corrosion and resisting -20°C low temperature.
- 主阀膜片采用进口特制橡胶，强耐腐蚀，耐低温 -20°C。
- Special stainless steel magnetic material never rusts and generates remanent magnetism
- 线圈部件采用进口F级漆包线，绝缘性能优良。
- Class F loop with good insulation
- 防爆等级：ExdIIBT4
- Anti-Explosion Class: Exd II Bt4

### 技术说明Technical Specification

|                          |             |
|--------------------------|-------------|
| 公称直径Diameter:            | 1/2"        |
| 连接方式Connection:          | Thread      |
| 流量Flow Rate:             | 5~50L/min   |
| 工作压力Working Pressure:    | 0~1.6MPa    |
| 工作电压Voltage:             | AC220V 50HZ |
| 环境温度Ambient Temperature: | -20°C~65°C  |

|                 |               |
|-----------------|---------------|
| 包装Package:      | 25PC/CTN      |
| 毛重Gross weight: | 31KG          |
| 净重Net weight:   | 30KG          |
| 包装尺寸Dimension:  | 360*360*290mm |

国家防爆
