

System Integrations

• Integration With BESS & Solar PV Systems

- Our rental generators are engineered to seamlessly integrate with:
 - Battery Energy Storage Systems (BESS)
 - Solar PV installations
 - Hybrid microgrid controllers
 - Load management systems
- Compatible with Leading Energy Management Platforms
- Our generators can interface with controllers and energy management systems from:
 - ComAp
 - SMA Solar Technology
 - Deep Sea Electronics
 - Victron Energy

• Remote Monitoring & Asset Tracking

- Track location and monitor vital operation data in real-time via the control panel, keeping you fully informed and in control.
 - See every piece of equipment on rent, across every jobsite
 - Turn your data into actionable insights with productivity and sustainability analytics
 - Tailor dashboards, reports and alerts for your unique fleet and jobsite needs.

Rental Power Solution

That Works For You

Container Type

Fuel Tank

Silent Type

Trailer Type

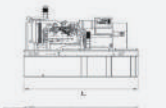

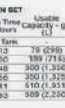

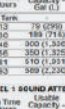

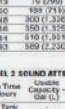

Haifeng Power

Designed for professional generator rental companies, Haifeng Power offers customizable, fast-deploy power solutions with flexible voltage and frequency conversion, remote monitoring, and asset tracking. With ultra-quiet operation, high power density, global standard compliance, and rugged durability, our generators help maximize fleet efficiency across diverse applications.

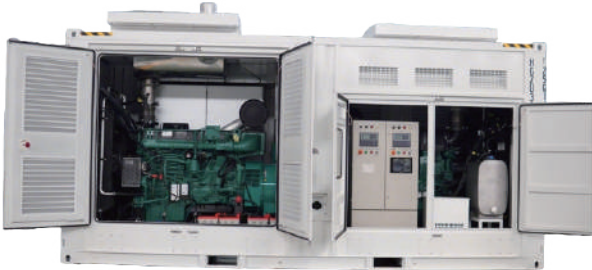

We provide a complete range of transportable rental equipment, backed by expert support to ensure you get the right temporary power solution for your business needs.

Super Silent Enclosure
Ultra-quiet performance enabled by optimized exhaust duct and an acoustically insulated enclosure. Build Options:

- Level 0 Sound Attenuated Enclosure
- Level 1 Sound Attenuated Enclosure
- Level 2 Sound Attenuated Enclosure

OPEN SET		Location	Capacity	Weight
Run Time	Hours	Capacity	Weight	Weight
12	75 (250)	120 (3,362) x 44 (1,241) x 98 (2,992)	425 (1,000)	155 (79)
30	180 (718)	120 (3,362) x 44 (1,241) x 98 (2,992)	425 (1,000)	155 (79)

96	648 (2,726)	120 (3,362) x 44 (1,241) x 98 (2,992)	425 (1,000)	155 (79)

High Power Density With Less Space

Higher containerized power density means more power in less space, lowering storage, transport, and deployment requirements.

- 20HQ CSC Certified Container
- 40HQ CSC Certified Container
- Custom Sized CSC Certified Container

Multi-Standard Plug

Configurable plug options to match any country standard and application requirement. Available options include:

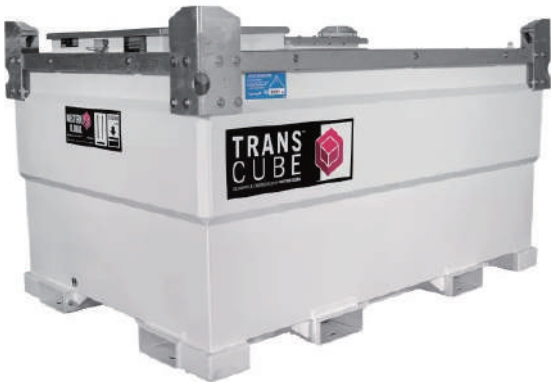

- Powerlock / Camlock connectors
- CEE industrial sockets
- Hardwire terminal connections
- Custom distribution panels

Fuel tank

A wide selection of rental fuel tanks designed to store, transport, and dispense the fuel you need to keep your fleet moving. Our inventory features an extensive range of tanks with capacities ranging from 100 to 7,000 gallons.

- Lockable Equipment Cabinets & Four Way Forklift Pockets
- 110% DoubleWalled Transportable Diesel Tank
- Corner Brackets & Removable Inner Tank

DOT Approved Trailers

Trailer-mounted and containerized solutions designed for easy transport and rapid deployment, with road-legal trailers certified with VIN numbers for compliant on-road use.

- Brake Mode: Electromagnetic brake/Air brake/Oil brake
- Optional Shock Absorption Feature
- DOT Certified LED Taillights & Jack Legs

Multi-Voltage & Multi-Frequency Switch

One generator platform for multiple countries & electric requirements. Designed for professional rental operators requiring maximum operational flexibility in international projects.

- 50Hz / 60Hz Multi-frequency Switchable
- 220 / 380 / 400 / 480V / 600V Multi-voltage Switchable
- Ideal For Cross-Border Rental Fleets
