DEDICATION

ZHENG'S WAY

www.zhengsway.com

YOUR LONG-TERM STABLE PARTNER.

FAMILY

We're a family brand, we value what family does to inspire love and dedication in product design and business execution.

SAFETY

Ladder safety is our priority. Designing and bringing ladders that are at the highest level to clients is #1 for us here.

DEDICATION

Decades, one craft - Mr. Zheng pours his time, skill and soul into securing every step you take.

PRODUCTION AND FOREIGN TRADE

DEAR CUSTOMERS

We are ZHENG'S WAY. We have been designing and manufacturing ladders for many years.

It is my pleasure to address you as I introduce our new edition of our annual product catalogue.

At ZHENG'S WAY, we are committed to providing high-quality, safe, and reliable products while also emphasizing innovation and the courage to challenge ourselves. Our team approaches each step with utmost care, from selecting raw materials to production, inspection, and packaging, maintaining a high level of focus and precision throughout.

We firmly believe that this level of care and commitment to quality ensures that every ladder we produce meets and exceeds customer expectations. Not only do we strive to provide high-quality, safe products, but we also continuously innovate, push boundaries, and offer customers more convenience and comfort.

Thank you for your trust and support. With your cooperation, we look forward to a future full of sustained growth, success, and mutual prosperity.

NIKI 郑飞燕
General Manager

WHY CHOOSE US

HARD POWER, BACKED BY **NUMBERS.** **SINCE 2008!**

A catalogue page can promise anything. *What it cannot fake is capacity.*
Here is exactly what we have, how fast we ship it, and how we take your idea from a sketch to a container.

WHY CHOOSE US

LEAD TIMES YOU CAN PLAN A SEASON AROUND. **7 DAYS SAMPLE!**

COOPERATION TYPE	SAMPLE	MASS PRODUCTION
Regular OEM Your Colour · Your Logo · Your Packaging	7 working days	35 days
New ODM development Co-Designed New Products, Patent Support	7 working days	Schedule Locked On Approval

Questions answered **24+1 hours** — we work your time zone, not ours. Free samples of the latest models on request.

01
Brief & proposal
Market, target price, standard (EN131 / EN14183 / ANSI / CE). Costed proposal within 24+1 hours.

02
Design & engineering
3D modelling, structure & stress review, 15 processing steps defined before the first tube is cut.

03
Prototype & testing
Physical sample in 7 working days; third-party lab testing arranged for your market.

04
Mass production & QC
Strict material selection, defective rate under 0.01%, container in 35 days.

05
Packing & shipping
Retail-ready packaging, barcodes, loading plan and full export documents.

CUSTOMIZATION IN PRODUCTION.

CASE 01 · EUROPEAN DIY BRAND
Tool-pouch step stool, EN14183
Custom handrail carrying a removable tool pouch, one platform across 3 / 4 / 5 steps — still in repeat production today.

CASE 02 · NORTH AMERICAN SELLER
Dopamine colour programme
Custom powder-coat palette matched across ladder and packaging, with MOQ low enough to test the market.

CASE 03 · RETAIL CHAIN
Patented detachable tool tray
Engineered, patented and tooled in-house; folding volume kept small enough for retail cartons.

BUSINESS QUALIFICATION

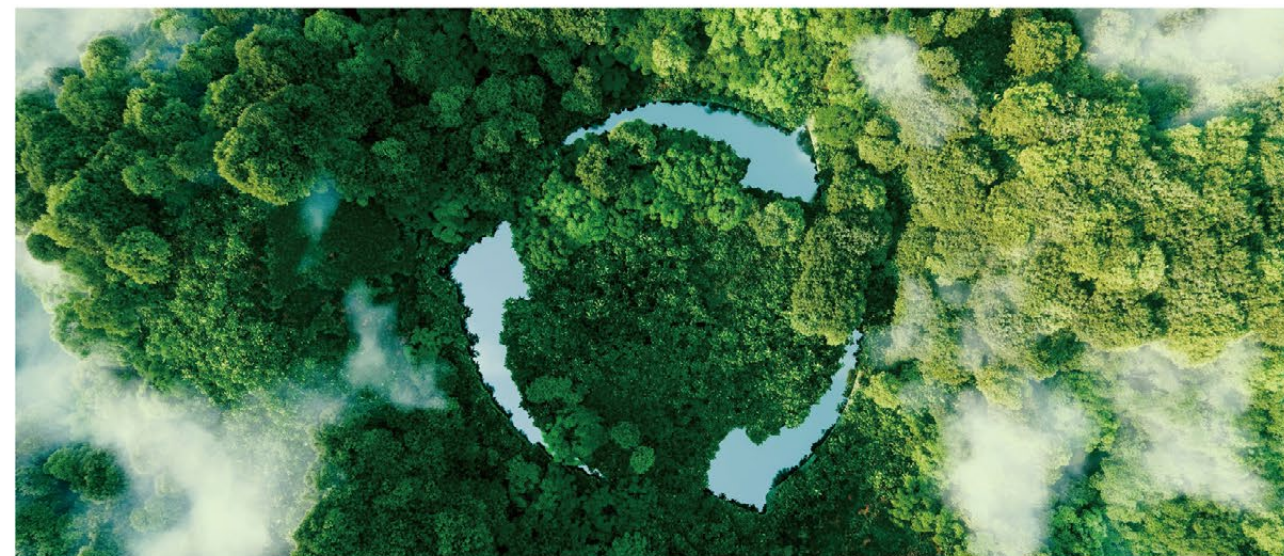

EN14183

EN131

ANSI

In today's fiercely competitive business environment, the success of a company depends not only on its financial performance but also on its social responsibility. Let's explore together the efforts we have made and the achievements we have accomplished in these areas.

WE WANT TO DRESS THE WORLD RESPONSIBLY

Contemporary businesses are increasingly emphasizing the fulfillment of social responsibilities while pursuing economic benefits. As a production and trading company, we firmly believe that environmental protection, sustainability, employee care, and safety are our undeniable responsibilities. Additionally, we actively participate in various social welfare activities to contribute positively to society.

ENVIRONMENTAL PROTECTION

Firstly, we are committed to environmental protection and sustainable development. Throughout our production process, we strictly control emissions of exhaust gases, wastewater, and solid waste, implementing a series of measures to reduce our environmental impact. We also actively promote the concept of energy conservation and emission reduction, encouraging employees to save resources and reduce carbon emissions to collectively build a beautiful homeland.

SOCIAL WELFARE ACTIVITIES

Furthermore, we actively participate in various social welfare activities, giving back to society and fulfilling our corporate social responsibilities. We donate to educational funds to support underprivileged students' education, engage in tree planting activities to contribute to environmental improvement, and participate in post-disaster reconstruction efforts to help rebuild homes for disaster-stricken communities. Through these initiatives, we hope to make a meaningful contribution to the social harmony and stability.

CARE AND SAFETY

Secondly, we place great importance on employee care and safety. We provide a favorable working environment and welfare benefits, caring for the physical and mental health of our employees by conducting regular health check-ups and psychological counseling activities. During the production process, we strictly adhere to safety operating procedures to ensure the personal safety of our employees, ensuring that each employee can work in a safe environment.

Attic Stairs

150 MAX KG **Aluminum Material**

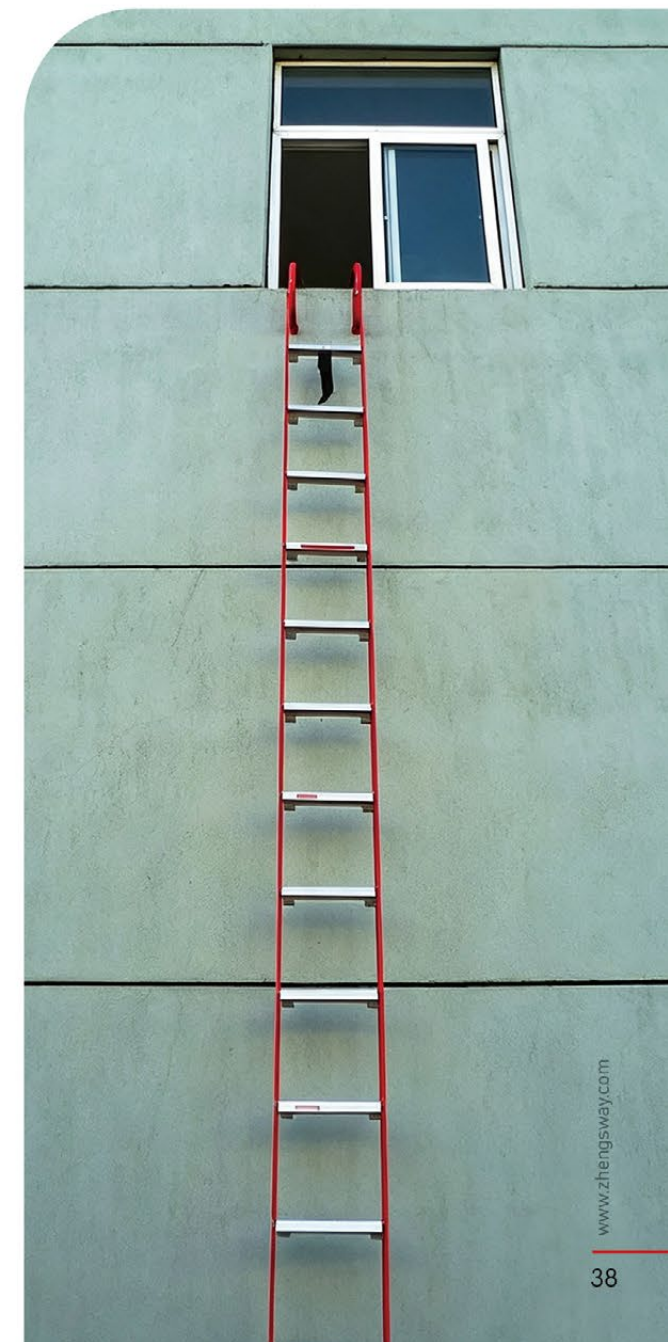

PRODUCT ADVANTAGES

Maximize space utilization: No floor occupation unlike fixed stairs, keeping indoor ground fully usable.
Ideal for infrequent use: Far more practical than fixed stairs if the attic is mainly used for storage with rare access.
Unified decoration style: Concealed design integrates into ceiling without damaging interior decoration

Escape Ladders

The hooks secure the ladder to the window frame or to the sill of most windows and won't slip off. The ladder hook is RETRACTABLE, please extend the ladder hook at both ends to the maximum when using. No assembly or tools are required, easy to use and fast to deploy, built for emergencies. Strong and durable escape ladder, slip-resistant rungs provide a steady foothold, can escape quickly and easily.
